The DBSS6 is a premium line-haul steer tire that is SmartWay verified and approved for use on EPA SmartWay certified equipment as well as all equipment where a SmartWay tire is recommended. The DBSS6 features a decoupling groove and five wide ribs for a stable ride at all speeds. Stone ejectors minimize tire damage, while extra-wide grooves and S-sipes improve traction for excellent hydroplaning resistance. SmartWay verified tires can improve fuel efficiency by 3 per cent or more.

APPLICATIONS:

- Intrastate and Interstate Buses
- Long-Distance Trucks
- Regional Trucks

SMARTWAY VERIFIED TIRE
