The WGC28 is available in standard- and low-profile sizes to provide a wide square footprint on the road. The WGC28 is also designed with angled tread blocks with opposing center ribs for superior traction.

Features and Benefits:

- Soil and mud traction through angled shoulder sipes
- Opposing tread block design reduces chipping and scrapes
- Superior wet traction through an aggressive shoulder design

Applications:

- Regional Trucks
- Freight Trucks
- Dump Trucks
- Ready Mix Trucks
- Refuse Trucks
